

Hi All,

*We are approaching the end of this year and we find ourselves again in the conditions we were in in 2020, but 2022 will surely see the end of this situation that has limited us in many of our activities.*

*This period has taught us to be more resilient as on the other hand our School has always taught us, we will come out of these difficulties, that's for sure, as the rainbow only comes out after the rain and dawn after the night.*

*Next year will be very important for us to close 50 years of GDJ Italia together with 40 years of presence of Hontai Yoshin Ryu in Italy and we do not want to miss this appointment.*

*We are planning a great European Taikai for mid-June 2022, you will have all the info in January so that, as we have always done, we will give everyone the opportunity to participate by planning in advance.*

*It will be a rebirth for all future years. Together with our Densho, I wish you, your Families, your Students and their Families my heartfelt wishes for an extraordinary 2022 full of happiness and peace.*

*Ci vedremo presto!!*

*Stelvio Sciutto*
